

Equality Objective

To foster good relationships between different groups of pupils.

Reasons for choosing this objective.

- To increase the numbers of pupils who report they are confident that the school deals with any causes of bullying effectively (bullying includes persistent name calling, cyber, racist and homophobic bullying).
- To continue to improve systems for reporting and recording bullying incidents by types.
- To continue to promote opportunities for boys and girls to learn more about career opportunities which challenge gender stereotyping (need to survey pupils via PSHE before and after survey looking at potential career choices).
- Continue to promote and enhance positive images which reflect the diversity of the school and community in terms of ethnicity, gender, disability and a range of sexual orientations, for example in books, publications and learning materials in classroom/corridor displays and in newsletters
